

GREAT GUYANA TRADE AND ENTERPRISE INC.

Management's Commitment to the Development of a HSE System

Great Guyana Trade and Enterprise Inc. is committed to HSE excellence in all spheres of its operations. This commitment is transacted through its HSE Management System Philosophy, in which every individual ensures that all operations are carried out in an incident free environment and as a quality product for which no effort is spared to prevent accidents and pollution, and should they occur, Great Guyana Trade and Enterprise Inc. will take immediate steps to stop them, prevent their recurrence and mitigate as required. This will be accomplished through:

1. The conduct of periodic status review of the company's HSE Management System.
2. Continuous monitoring and review of policies for effectiveness.
3. Full compliance with statutory requirements for Environmental Management and Occupational Health and Safety Management practices, and encouragement and requirement of same from all associates.
4. The encouragement of appropriate HSE behavior practices through the education and training of all employees.
5. The establishment of emergency response capacity on the basis of continuous risk and hazard assessment analysis review and incident assessment monitoring.

This general company HSE philosophy has been developed to reflect and communicate a proactive HSE attitude to all employees and stakeholders.
